Spring Boot

- : Java
- Link : <https://spring.io/projects/spring-boot>
- WebSocket : org.springframework.web.socket
- MVC : thymeleaf

Routee

```
@Controller
@RequestMapping(path="/") // Router .
public class UserSearchAPI {
}
```

Get Method

```
@GetMapping(path="/usersearch") // .
public @ResponseBody List<User> userSearch(
    @RequestParam String name,
    @RequestParam int pagenum,
    @RequestParam int pagesize
){
    PageRequest pageReq = new PageRequest(pagenum, pagesize);
    Page<User> userPage =userPageRepo.findByNameContaining(name,pageReq);
    return userPage.getContent();
}
```

PlayFrameWork

- :Java/Scala
- Link : <https://www.playframework.com/>
- Websocket: AkkaStream or Atmosphere
- MVC : Twirl (ASP.NET Razor)
- : API [PokerGame](#)

Routee

```
GET /rest/GameInfo GameInfo()
```

Get Method

```
def GameInfo = Action {
    Ok( Json.toJson( "" ) )
}
```

```
play run "9000"
```

Microsoft.Owin.Hosting([ASP.net](#))

- :C#, Open, Microsoft IIS MS
- : [ASP.net](#) (IIS)
- Link : <http://owin.org/>
- Wssocket:WebSocketSharp,SuperWebSocket , SignalR
- MVC : [ASP.net](#) IIS.Hosting [ASP.net](#) Razor

: .net core 2.x .

Routee

```
Get["/GameInfo/{tid}", runAsync: true] = async (_, token) => .....
```

Get Method

```
public async Task<Response> GameInfo(int tourId){...}
```

```
var host = new NancyHost(new Uri("http://localhost:9000")); //Host ,Nancy (IIS NancyHost )
host.start()
```

Node.js

- :Javascript
- Link : <https://nodejs.org/ko/>
- Wssocket:[Socket.io](#)
- MVC : Express, Jade View

Routee

```
app.use('/', routes);
```

Get Method

```
router.get('/GameInfo', function(req, res, next) {
  res.send('respond with a resource');
});
```

```
server.listen(80, function () {  
    console.log('Example app listening on port 80!');  
});
```
